

---

The Office of the Treasurer of The Regents is responsible for managing the investments and cash for the University of California system. The principal activity of the Treasurer's Office is the management of the system's retirement, defined contribution and endowment funds, as well as the system's cash.

At June 30, 2007, the Treasurer's Office managed approximately \$73.4 billion in total assets.

The Treasurer's Office carries out all investment activities according to the policies established by the Investment Committee of The Regents of the University of California. The Treasurer's Office investment staff includes 25 investment professionals with an average of 16 years of investment experience.

## **The Short Term Investment Pool**

Office of the  
Treasurer  
Of The Regents

June 30, 2007

## Short Term Investment Pool (STIP)

June 30, 2007

The Short Term Investment Pool (STIP) was established in fiscal 1976 as a cash investment pool available to all University fund groups. STIP allows fund participants to maximize the returns on their short-term cash balances by taking advantage of the economies of scale of investing in a larger pool.

STIP consists primarily of current funds slated for payroll, operating and construction expenses for all the campuses and medical centers of the University. In addition, funds awaiting permanent investment in one of the long-term pools are invested in STIP to earn maximum daily interest until transferred.

**STIP is a cash management vehicle for short-term funds.**

**Investment Objective:** STIP's basic investment objective is to maximize returns consistent with safety of principal, liquidity and cash-flow requirements. STIP's investments

encompass a broad spectrum of high quality, money-market and fixed-income instruments (domestic and foreign) with a maximum maturity of five and one half years. The Treasurer's Office structures investment maturities to ensure an adequate flow of funds to meet the University's cash requirements.

Investment Objective:

**Maximize returns consistent with safety of principal, liquidity and cash-flow requirements.**

**Investment Strategy:** The Treasurer's Office manages STIP as a highly liquid portfolio, using maturity distribution strategies to maximize returns in different yield-curve environments. The Treasurer's Office also employs select swapping strategies by taking advantage of disparities in the market to improve quality and yield, while maintaining liquidity.

**Asset Mix:** STIP's investments totaled \$8.0 billion at June 30, 2007. The following chart illustrates STIP's asset mix as of each of the past five fiscal year ends.

Asset Mix

**Yields:** STIP has achieved very attractive returns over the years, driven by its investment mix and range of maturities.

NET STIP YIELDS VS. TREASURY NOTES		
<i>periods ending June 30</i>		
Fiscal Year	Net STIP Yield*	2-Year T-Note
2007	4.7%	4.9%
2006	4.2%	4.4%
2005	3.6%	3.0%
2004	3.4%	1.7%
2003	3.9%	1.8%
<b>Annualized 5-year avg.</b>	<b>4.0%</b>	<b>3.2%</b>

\* Net STIP yields are after administrative expenses of 1.5% of earned income.
